

TECHNICAL DATA SHEET

UNIVERSAL SANDER BACKING PAD TURBO

EAN code: 5907588402767 item no.: 00600241 Ø 150mm

+ PROPERTIES

Universal velcro pad is suitable for both 6-hole and 8+1-hole system abrasive discs. The universal mounting method makes it possible to work with all generally available polishing machines. Thanks to its special design, dust from the treated surface is removed almost completely. In addition, thanks to the large air space inside the pad, it is constantly cooled protecting it from excessive overheating during operation. Install the pad in the mounting bracket for the polisher. Install sandpaper (diameter 150 mm) with the appropriate granulation and arrangement of holes. For rounded surfaces or sharp edges, we recommend using a flexible sanding pad of the appropriate thickness.

Maximum speed: **1200**.
