ANTI HOLOGRAMM

EAN code: 5907588408714 item no.: 0035121 cap. 250ml

EAN code: 5907588408738 item no.: 0035122 cap. 500ml

+ PROPERTIES

ANTI HOLOGRAMM is a product for the most demanding users and complements BOLL B1000 paste, ensuring the highest quality finish. This mildly abrasive paste effectively eliminates micro-scratches and any holograms that may have formed during previous polishing stages. After using BOLL B1000 and combining it with a suitable polishing pad, it enables achieving the so-called "mirror" effect, providing a flawless and smooth surface.

- **Cutting force: 4/10**
- **Gloss level: 10/10**

•• COLOUR

white

☞ METHOD OF USE

Apply a small amount of paste to a properly selected polishing sponge attached to the polishing device. Then, using the sponge, spread the paste on a part of the component in question and start polishing starting from the lowest speed. Gradually you can increase the speed of the polishing machine, remembering not to exceed 2,000 rpm. This product can also be used with manual application. The best effect can be obtained after prior application of B1000 paste.

☰ INFORMATION

Do not use on heated elements.

/// APPLICATION

Mix thoroughly

Can be used by hand or machine

Maximum 2000 rpm

Wipe with a microfiber cloth

Does not contain silicone

PHYSICAL PROPERTIES

Density at 20°C:
Temperature of use:

1,01 g/cm³
+15°C – +25°C

STORAGE

Protect the product from excessive low and high temperatures. Avoid direct exposure to sunlight. Store in dry places.

SHELF LIFE

24 months from the date placed on the package.

SAFETY

See Safety Data Sheet.

OTHER INFORMATION

All technical data are approximate values. We advise you to test the material to ensure its suitability for a specific application. The producer reserves the right to improve the product and change the technical conditions with the possibility of making changes inside the specifications.
